

THIRTIETH SUNDAY IN ORDINARY TIME

FROM: YOUCAT Youth Catechism of the Catholic Church God Approaches Us Men

How can Sacred Scripture be “truth” if not everything in it is right?

The - Bible is not meant to convey precise historical information or scientific findings to us. Moreover, the authors were children of their time. They shared the cultural ideas of the world around them and often were also dominated by its errors. Nevertheless, everything that man must know about God and the way of his salvation is found with infallible certainty in Sacred Scripture. [106-107, 109]

16. What is the right way to read the Bible?

The right way to read Sacred Scripture is to read it prayerfully, in other words, with the help of the Holy Spirit, under whose influence it came into being. It is God’s Word and contains God’s essential communication to us. [109-119, 137]

The—Bible is like a long letter written by God to each one of us. For this reason I should accept the Sacred Scriptures with great love and reverence. First of all, it is important really to read God’s letter, in other words, not to pick out details while paying no attention to the whole message. Then I must interpret the whole message with a view to its heart and mystery: Jesus Christ, of whom the whole Bible speaks, even the Old Testament. Therefore I should read the Sacred Scriptures in the faith that gave rise to them, the same living faith of the Church.—491
